

Oral Presentation Parcial 2: Descriptions

Person:

Ricardo is a tall, dark-eyed man with neatly combed black hair. He is slim but has a small belly that adds a bit of charm to his appearance. Sometimes, he can be a bit grumpy, especially when things don't go as planned, but that doesn't take away from his qualities as a great friend. He is always ready to help with anything, showing his big heart in every action. Ricardo is very romantic, the kind of person who surprises you with flowers for no reason and writes heartfelt love letters. Moreover, he is undeniably handsome, with a captivating smile that lights up any room.

Place:

The surroundings of San Luis Río Colorado, especially the valley, are truly beautiful. It's a perfect place to spend the day with family, filled with landscapes that look like they're straight out of a fairy tale. Even though it can sometimes be a bit dangerous to visit, the experience is worth it. It's a perfect escape from daily problems, and when the sky is cloudy, the feeling of being in another world intensifies. Sundays are special, as it's my favorite day to go and enjoy the peace and beauty of the valley. The fresh air and wide green spaces are a welcome break from the city's hustle and bustle.

Experience:

When I had surgery for a herniated disc at 16, it was a unique and surprising experience. The hernia was quite large, and it took two years before they decided to operate. The process was long and challenging. After the surgery, I stayed in the hospital for three days. The care I received was exceptional, but being at home was even more comforting. I needed a full month to recover completely, and during that time, I learned to be patient and to value my health. Now I'm fine, although there's a significant restriction in my life: I can't lift heavy things. Despite everything, I'm grateful for having overcome that challenge and for the strength the experience gave me.
